Gentlemen:
Please send me

your MILDRED
LOUISE and hope
you will introduce
others, soon, with
the quality of MIL-
DRED LOUISE.

variety I have ever seen. I saw it in the fields 6 feet high with 8 or more 6-inch blooms at one time. The color can only be classed as a light ivory-buff though it will be known as a good yellow. Gigantic in every way: height, stem, florets, leaves and buds. For you who like them big we recommend Iosco.

BYE-LO. La-France-pink. (Dec.). Kinyon. This pleasing new variety has been tested and rated the high score of 85 points by commercial Growers and Florist test. The florets are La-France-pink with a small self marking, and are well placed on a decorative spike, standing 3½ to 4 feet tall. There are eight 4-inch flowers open at one time. A variety that is in harmony in every detail.

1 large bulb, \$1.00.
Large size only for sale.

TYRIAN PRINCESS. Mallow rose. (Dec.). Kinyon. This beautiful variety won the seedling award at the Michigan Gladiolus Show in 1937, scoring 89½ points. The color of this variety was judged its greatest outstanding merit. The color is a mallow rose or rose-purple. The florets are compactly spaced with twelve to fourteen open at one time, on a gracefully long, strong stem bearing 18 buds.

1 large bulb,
\$1.00.
Large size only
for sale.

Tyrian Princess

TOSCO. Ivory-buff. (Ex.). Kinyon. This is the largest, most open-flowered yellow

1 large bulb, \$1.50.
Large size only for sale.

WHITE SPIRE. Pure white. (Ex.). Kinyon. **Of all the new or old white varieties I have seen to date I believe this to be the best.** The color is glistening white with no markings; the petals are chamois-like in substance. The florets are perfectly placed, eight being open at one time, of five-inch span. The long, tapering spike head will carry 18 to 24 buds. A tall growing variety, the tips of the spikes standing 4 to 5 feet from the ground. You who buy this variety have a great treat in store. I only wish I had more room to tell you of all its fine points.

1 large bulb, \$1.50.
